

Lausanne, 19 March 2020  
PT/NM/EO/CEO corr 2020

Dear all

In such unprecedented times, we would like, in our personal names and on behalf of the International Hockey Federation, to extend words of support to all members of the global hockey community.

In all parts of the world, the COVID-19 pandemic has disrupted our daily life and we have to adjust our behaviour to the decisions and recommendations of the expert bodies. This is of paramount importance for our own health and the health of others. More than ever, solidarity is required.

Therefore, we can only urge you to please follow the recommendations of the World Health Organisation and your local public authorities, and relay this message relentlessly to your local hockey community.

We wish you, your families and friends all the very best. Take good care of yourselves!

Yours sincerely,

Dr. Narinder Dhruv Batra  
President

Thierry Weil  
Chief Executive Officer
